The Enterprise AI Gap

Your competitors are already deploying AI. The question isn't whether to adopt — it's how fast you can close the gap.

70%

of AI projects fail
before production

62 %

lost annually to
manual processes

85%

of enterprise data
sits untapped

VGI Services delivers production-ready AI with guaranteed ROI — deployed in 90 days, not 18 months. We've done it for Fortune 500 companies. Let us do it for you.

What We Deliver

Nine integrated AI capabilities — each production-proven, enterprise-ready, and deployable in weeks.

AI Agent Development

Autonomous agents for complex tasks

Voice AI Interfaces

40+ language conversational agents

Workflow Automation

End-to-end process orchestration

SAP / ERP Integration

Seamless AI-powered ERP connectivity

AI Governance & Compliance

Responsible AI, audit, security

Predictive Analytics

Forecasting and decision intelligence

Cloud AI & MLOps

Model lifecycle and deployment

AI Strategy Consulting

Roadmaps and transformation advisory

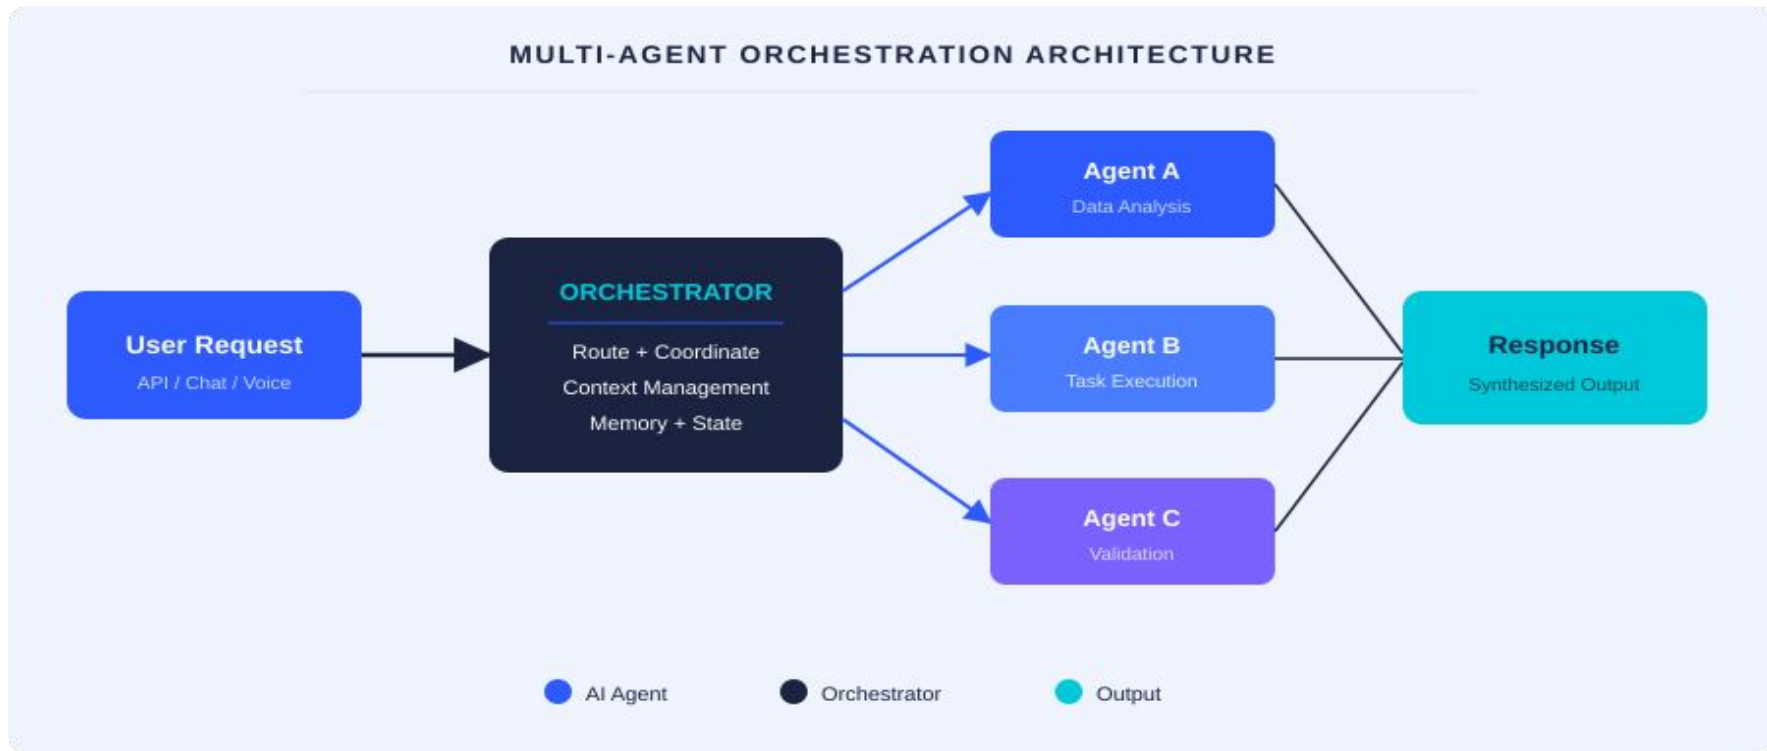

Data Engineering

Pipelines, lakes, real-time architecture

01

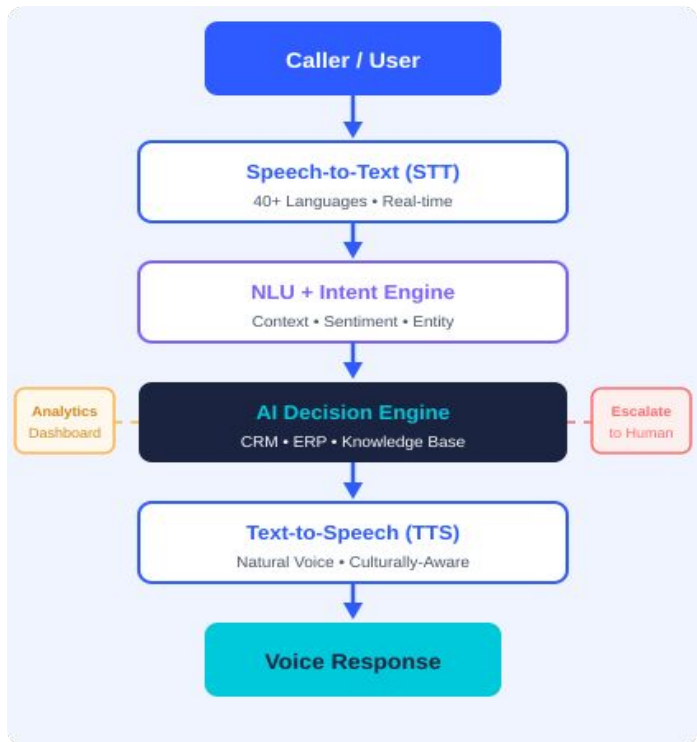

AI Agent Development Platform

Deploy autonomous AI agents that handle complex tasks 24/7 — cut costs by 80% while improving speed and accuracy.

Voice AI & Conversational Interfaces

Your customers expect instant, intelligent support in their language. Our voice agents deliver — 40+ languages, 24/7, with zero hold times.

Inbound Support

24/7 intelligent call handling with sentiment analysis and live escalation triggers

Multilingual Outreach

Voice campaigns in 40+ languages with culturally-aware synthesis

Internal Helpdesk

IT/HR self-service — password resets, leave requests, policy FAQs

Sales Intelligence

Real-time call analytics, lead scoring, CRM enrichment

03

Enterprise Workflow Automation

Stop burning money on manual processes. Our AI orchestration delivers 85% faster processing with 99.5% accuracy.

INTELLIGENT PROCESS FLOW

AI classifies → routes → executes → validates → optimizes — end to end

85%

Less manual processing

60%

Lower costs

99.5%

Accuracy rate

3x

Faster resolution

04

SAP & ERP Integration Suite

Don't rip and replace — layer AI intelligence on top of your existing ERP. Works with SAP, Oracle, Dynamics, Workday, Salesforce, and ServiceNow.

Data Layer

Real-time sync, validation, master data management

Process Layer

Automated PO, invoice matching, reconciliation

Intelligence Layer

Anomaly detection, demand forecasting, analytics

Insert ERP Dashboard Screenshot

AI Governance & Compliance

Deploy AI with confidence. Our governance framework keeps you compliant with EU AI Act, NIST, ISO 42001, SOC 2, GDPR, HIPAA — automatically.

Model Risk Management

Continuous monitoring, bias detection, drift alerts, performance benchmarking

Ethical AI Framework

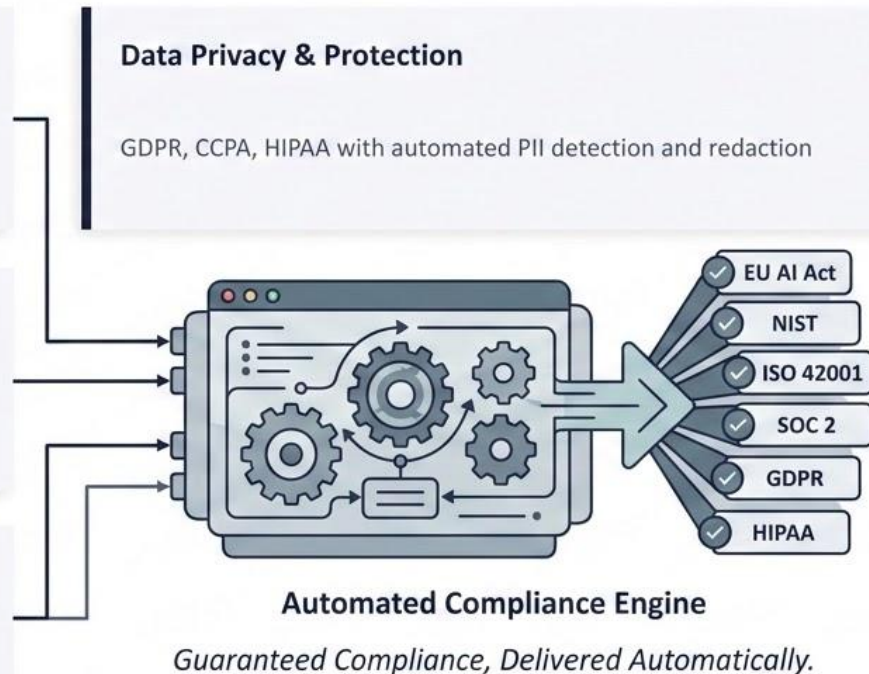

Fairness audits, explainability dashboards, human-in-the-loop safeguards

Regulatory Reporting

Automated compliance documentation across all major frameworks

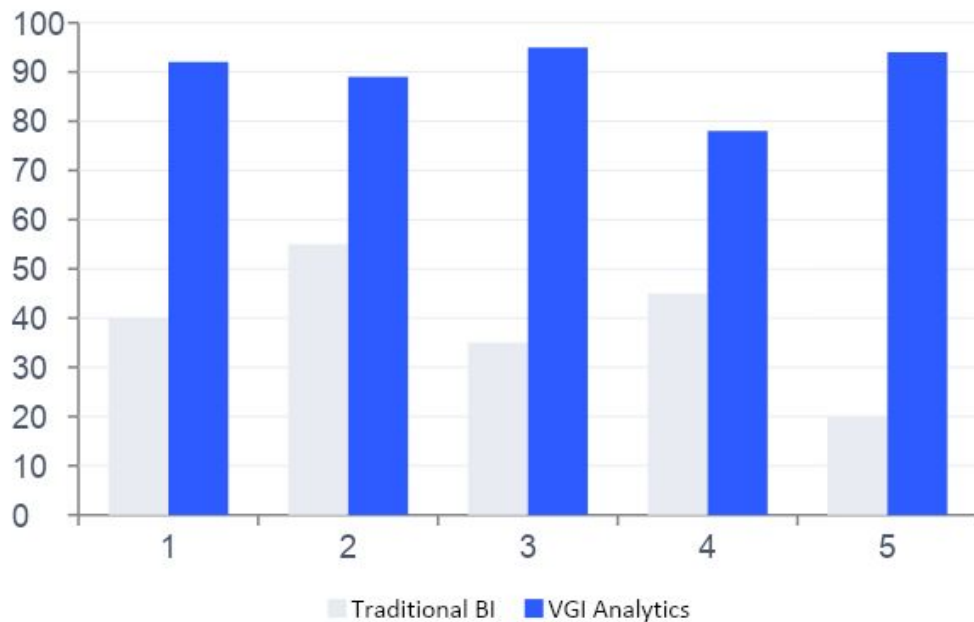

Data Privacy & Protection

GDPR, CCPA, HIPAA with automated PII detection and redaction

Predictive Analytics & BI

See what's coming before it happens. Our analytics consistently outperform traditional BI by 2-3x across every metric.

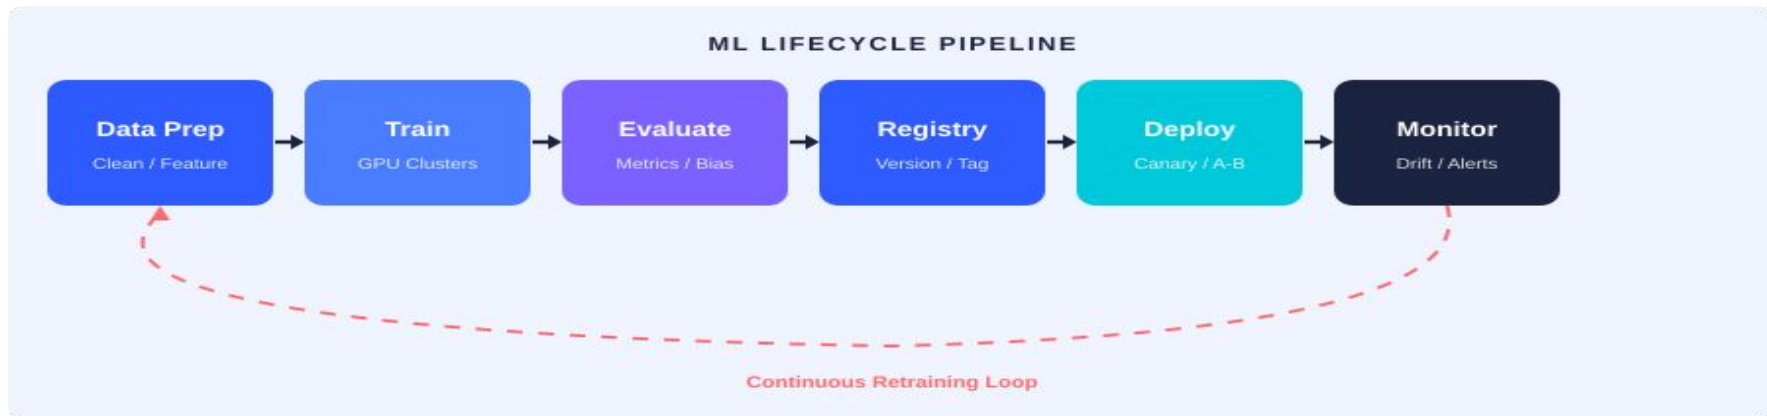

Key Capabilities

- ★ AI demand forecasting
- ★ Real-time anomaly detection
- ★ Natural language queries
- ★ Auto insight generation
- ★ Custom predictive models
- ★ Executive dashboards
- ★ Cross-source data fusion

Cloud AI & MLOps

From notebook to production in days, not months. Full lifecycle on AWS, Azure, and GCP with auto-scaling and continuous retraining.

Model Training & Tuning

Distributed GPU training, hyperparameter optimization, experiment tracking

CI/CD for ML

Automated pipelines with testing, validation gates, canary deployments

Real-Time Inference

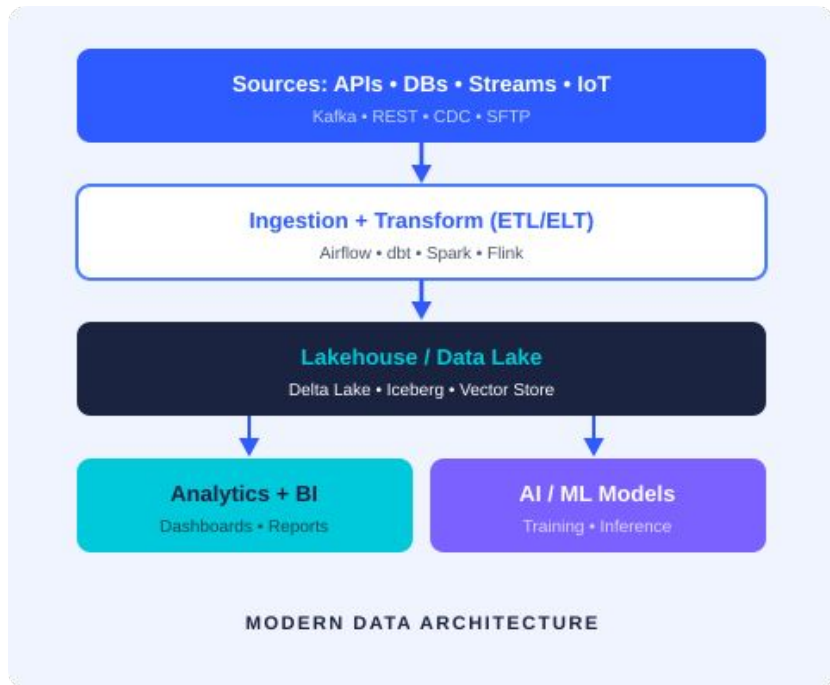

Low-latency serving with auto-scaling and A/B testing

Monitoring

Drift detection, dashboards, automated retraining triggers

Data Engineering & Architecture

AI is only as good as its data. We build the modern data foundation — from ingestion to analytics-ready lakehouses.

- ✓ **Data Lake & Lakehouse**
Delta Lake, Iceberg, cloud-native with schema evolution
- ✓ **Real-Time Streaming**
Kafka, Spark Streaming, Flink for sub-second processing
- ✓ **ETL/ELT Pipelines**
Airflow, dbt, custom frameworks — batch and incremental
- ✓ **Vector DBs & RAG**
Enterprise knowledge bases for retrieval-augmented generation
- ✓ **Data Quality**
Automated profiling, lineage tracking, master data management
- ✓ **Migration**
Zero-downtime legacy warehouse migration to cloud-native

AI Strategy & Consulting

Don't just buy AI — build an AI-first organization. We guide your transformation from assessment to Center of Excellence.

AI Readiness Assessment

Evaluate maturity, data, infrastructure readiness

Use Case Prioritization

Rank opportunities by impact, feasibility, and ROI

Technology Selection

Vendor-agnostic LLM, platform, and tooling advice

Transformation Roadmap

Phased plan with milestones and ROI projections

Change Management

Workforce upskilling and organizational alignment

CoE Setup

Build your AI Center of Excellence with governance

Industries We Serve

We don't do generic AI. Every deployment is tailored to your industry's regulations, operations, and competitive landscape.

Financial Services

Fraud detection, risk modeling, regulatory reporting

Healthcare

Clinical decision support, drug discovery, patient flow

Manufacturing

Predictive maintenance, quality inspection, digital twins

Retail

Demand forecasting, personalization, dynamic pricing

Logistics

Route optimization, warehouse automation, fleet mgmt

Telecom

Network optimization, churn prediction, capacity planning

Why VGI Services?

We're not consultants who leave you with a PDF. We build, deploy, and support — with skin in the game.

✓ AI-Native Architecture

Built from scratch for AI — not retrofitted legacy tools

✓ Deep Domain Expertise

Specialists in finance, healthcare, manufacturing, retail, logistics

✓ Security Built In

SOC 2, ISO 27001, GDPR compliant from day one

✓ Enterprise Scale

Fortune 500 deployments, 99.99% uptime SLAs

✓ 90-Day Deployment

Measurable ROI milestones from sprint one — guaranteed

✓ Dedicated Success Team

Named account managers, 24/7 support, quarterly reviews

NEXT STEP

See it on *your* road.
